

Monday, 16th March 2020

Dear students,

As we told you in class, this third term we are going to learn about the music of the 60's and, in order to do so, you will have to create a **booklet (llibret)** as a final project.

Last day of class, we already gave you a page with the index and the main parts of the booklet. The first page said:

**"PAGE 1 - Cover.** *Be creative, you can use any technique: water colors, collage... The cover needs to represent the spirit of the decade."*

So this week you have to **create the cover of the booklet**. Here you have the instructions:

- It has to depict the spirit of the 60's. You can browse on the internet and search for the visual symbols of the sixties (peace and love, flowers, bright colors, clothing style, etc.).
- You should use a paper or cardboard size DIN A4 (normal folio size).
- You can use colors, watercolors, tempera, collage...
- You have to write a big title for the booklet with nice handwriting.  
Example: *"The fun 60's"* or *"Love and Peace in the 60's"*
- Be creative and use your imagination!!!
