

Hello 5th graders!

From Science we recommend you to watch a **film** called: "The odd life of Timothy Green" (*La extraña vida de Timothy Green*). We have chosen this film as it is connected to the Unit we have been studying in class: **Plants**.

You can watch it in Spanish if you need, but we think it is a good idea also to watch it in English (VO) and subtitles. Afterwards, you should complete the following **exercises**.
