

SCIENCE: TASK 5

Hello 5th graders!! =)

This week your Science teachers want you to *experiment* with **Unit 3**! We hope you have fun doing this activity!

Make a 3D model of an ecosystem

Follow the instructions!

Step 1: Choose one of these **ecosystems**:

➤ prairie pond woodland coast city

Step 2: Find out a **real place** about this ecosystem:

Write the prairie's **name**, the pond's name, the woodland's name or the city's name.

Step 3: Use the **internet** and **books** to **find out** about this **ecosystem**:

- Find out about the non-living things.
- Find out about the plants.
- Find out about the animals.

Step 4: **Write** this **information** the way you want to! Be *original & creative*
(use Word, PowerPoint, do a Poster, etc.).

Step 5: Make your **3D** model.

Step 6: Take a picture and send it to your Science teachers **before 6th May**.

Look at these *examples!!*

This is a pond

This is a coast

Any *questions*? Please, don't hesitate to ask us via *email*. We will be happy to hear from you:
