MARS

MARS is the fourth planet from the Sun.

MART és el quart planeta des del sol.

MARS is also called the RED planet.

MART també s'anomena el planeta VERMELL.

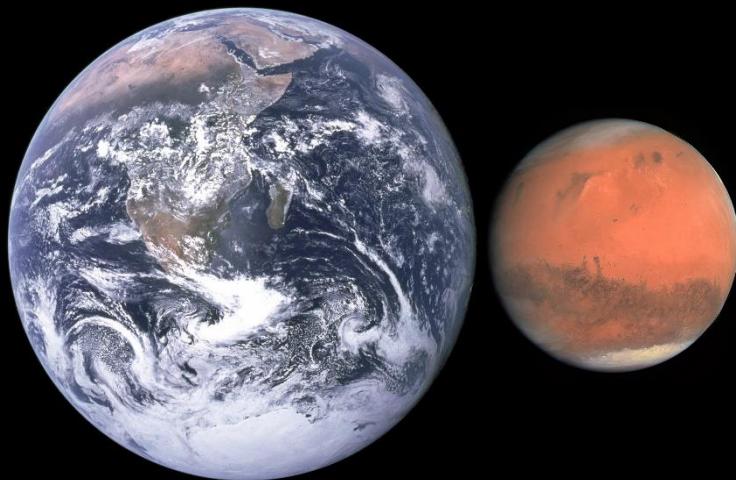

MARS has a HARD ROCKY surface that you could walk on.

MART té una superficie de ROCA DURA on podries caminar.

MARS is similar to EARTH.

It has seasons and mountains, but it is
smaller and it hasn't got water

MART és similar a la TERRA.

Té estacions i muntanyes, però és més petit i no té
aigua.

SCIENTISTS think that there may be life in Mars.

Because of this, they sent a ROBOT to MARS.

Els CIENTÍFICS pensen que pot haver vida a Mart, per això hi van enviar un ROBOT.

Nowadays, a robot called CURIOSITY is exploring MARS and sending information to the EARTH.

Actualment, un robot que s'anomena CURIOSITY està explorant MART i enviant informació a la TERRA.

NOW IMAGINE...

Today is your first day as an
ASTRONAUT,
and you have a mission to MARS.

Ara imagina... Avui és el teu primer dia com a
ASTRONAUTA,
i tens una missió cap a MART.

TASK

ANSWER TRUE OR FALSE:

- 1) Mars is the last planet of the Solar System.
- 2) Mars is also called "the BLUE planet".
- 3) Mars has a soft surface and full of water.
- 4) Scientists think that there may be life on Mars.
- 5) A robot called CURIOSITY is exploring MARS.

TASK

OPTIONAL CRAFT:

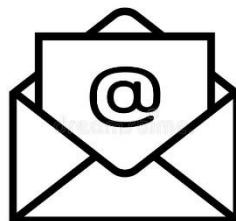

You can become an astronaut following the next video:

<https://www.youtube.com/watch?v=8uSzHHpuJnN4>

TASK

Take a piece of paper and answer TRUE or FALSE for **TASK 1**. You can take a photo of your answers or you can write us an e-mail.

fcps.science.department@gmail.com

THANKS!
