# UNIT 5: FORCES

Video: <https://drive.google.com/open?id=lrlos-elcsz6ij4ELaby4Gf8zQns4e5gm>

# What is force?

**Forces** make things move or stay still by pushing or pulling.

E.g. We use **push** and **pull** forces to **open** and **close** doors.

# Push

A **push** is when you use force to move a thing (object) away from you.

# Pull

A **pull** is when you use force to move a thing (object) closer to you.

# Task I:

## Pushing and pulling game!

- Open this link:

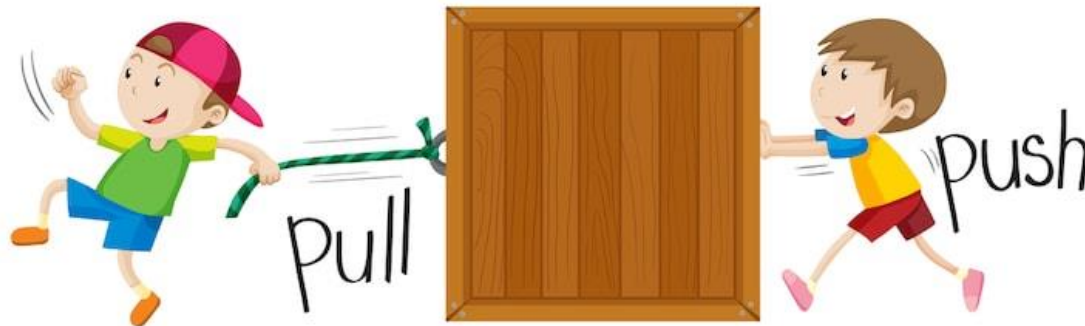

<https://forms.gle/BJtR5pEljb8DW3oL8>

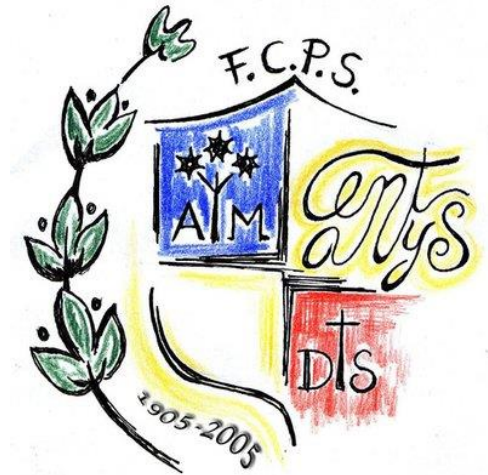

- Answer the questions and the answers will be sent to us automatically.

# Task 2:

## CHALLENGE!

Take a picture of you **pushing** or **pulling** an object around you and send it to your Science teacher.
