I'm Rachel and I live near Oxford. My favourite subject is History and I love going to the history museum. When I get home from school, I can't watch DVDs, but I can read history magazines. I often use my mum's computer to go online to look up information. Yesterday, I zoomed in on some great photos of Roman coins and combs, and I printed out a photo of a Roman knife.

My parents gave me a metal detector for my birthday. Yesterday afternoon, I was looking for metal in our garden. I didn't find any Roman cups or bowls, but I found a Roman coin. I felt very proud! Then I found a ring. I was curious about the ring so

I went online and clicked on a website which had information about the Romans. I scrolled down the pages, but I didn't see a photo of the ring. Then I showed it to my mum. She laughed. It was my great-grandmother's ring which she lost in our garden last year!
